President and Mrs. McKinley Cut Away From the Presidential Party.

and Journey to San Francisco.

Butterfly From a Bone Felon and Her Delicate Health Aggravates the Injury—Dolous of the Delegation.

San Francisco, May 13.—A special train bearing President and Mrs. McKinley, Miss Barber, Dr. Rixey, Secretary Cortelyou and Henry T. Scott arrived here Sunday afternoon from Del Monte. Mrs. McKinley was brought here by the president in advance of the regular program that she may obtain complete rest. Upon arrival here the president and party were driven to the residence of Henry T. Scott, which they will occupy during their stay here.

Mrs. McKinley's condition is said not to be alarming, but she has not been well since the long journey began, and the trip has fatigued her very much. Saturday night she did not respond to medical treatment, and both the president and Dr. Rixey considered it wise to take her to San Francisco, where she could have complete rest for a few days at Mr. Scott's residence, and where Dr. Hirschfelder, Mr. Scott's physician, could be consulted if necessary.

The cabinet and other members of the party will carry out the program as arranged, going to San Jose, and arriving at San Francisco on Tuesday. The present understanding is that the president will rejoin the party at San Jose if Mrs. McKinley's condition permits. Dr. Rixey said Mrs. McKinley is much better than she had been Saturday night.

Mrs. McKinley bruised her hand while the train was rounding a sharp curve in Texas, and has suffered considerably from the bruise since. Her delicate health, has aggravated the injury, and Dr. Rixey was twice compelled to lance it. The lancing relieved her very much for the time being.

Secretary Cortelyou, when questioned concerning Mrs. McKinley's condition, stated that there was nothing alarming in her present indisposition, and that perfect quiet and rest for a few days would restore her to her usual health. It was the impression, however, of those who saw Mrs. McKinley, that she is very ill, and that her present state may result in an entire change of the president's program.

Gloom Over the Party.

Delmonte, Cal., May 13.—The indisposition of Mrs. McKinley cast a shadow on the other members of the party who remained here, and there was talk at first of abandoning the entire schedule between here and San Francisco, but Mrs. McKinley requested that the plans of the party should not be disarranged by her departure. The party is scheduled to go to Santa Cruz for a glimpse of the big trees. The day after leaving New Orleans a bone-felon appeared upon Mrs. McKinley's finger. Her hand became swollen and gave her considerable pain and produced fever, which prevented her from sleeping.

Another Big Bridge.

New York, May 13.—William J. Amend, counsel for the North River Bridge company, and one of its directors, made the definite announcement that the Pennsylvania railroad is back of the company's scheme to build a bridge from Hoboken to Manhattan. He said that contracts were now being negotiated between the bridge company and the various railroad companies whose traffic will be accommodated by the bridge. As soon as these could be executed, he said, work on the structure would be commenced. It is estimated that the bridge can be completed within four years. The bridge is to be only for transportation of passengers.

All For the West.

Chicago, May 13.—After a tour of the west, including visits to several colleges which had been the subjects of his benefactions, Dr. D. K. Pearson has returned to Chicago and announced that he has drawn a line through Chicago and has disinherited everything and everybody east of that line from any share in the money he still expects to give away. Not one penny, Dr. Pearson says, will ever go to any institution east of Chicago. The million or two of dollars which he intends to dispose of within the next year is all for the west.

Brussels, May 13.—The Independent Beldge publishes affidavits signed by Count Ferdinand Walsin Esterhazy before the French consul in London, admitting the authorship of the Dreyfus bordereau and declaring that the bordereau was written with the connivance of Colonel Sandherr, chief of the secret intelligence bureau.

TROUBLE WITH TAGALES.

Expeditions After the Natives in Mindoro—Bridge Burned.

Manila, May 13.—The trial of Captain Frederick J. Barrows of the Thirtieth Volunteer Infantry, quartermaster of the department of southern Luzon, on charges connected with the commissary scandals, was finished Saturday. The verdict has not yet been publicly announced.

The department of southern Luzon is sending various expeditions in pursuit of the remaining Filipino bands. It is expected the island of Mindoro will be occupied in the near future. Many fugitive Tagales and a quantity of arms are reported to be concealed in Mindoro. The United States Philippine commission is overrun with applications for civil positions, and the officers of the new provinces are submitting many questions to the commission. The routine business of the commissioners is very heavy. The provincial officers have encountered no serious difficulties.

A party of natives partly burned the bridge near Lueban, Tayabas province, Thursday night, but were driven back without loss on either side.

A petition is on its way to the pope, signed practically by all the native priests, against the return here of Archbishop Chappelle as administrator, and favoring the return of Archbishop Nozaleda, who, although in Rome, is still Archbishop of Manila, his resignation having never been accepted. The opposition to Archbishop Chappelle is chiefly on account of his expressed intention to encourage the establishment of American priests in the Philippine islands.

Philippine Police.

Washington, May 13.—An extensive resume of the organization and varying conditions of the Philippine native police force is contained in a statement made public by the division of insular affairs of the war department. The report recites that because of the poverty of the municipalities the Philippine commission appropriated the sum of \$150,000 to provide increased pay for the body and offered, through General MacArthur, further incentive in the way of increased compensation for cases of meritorious and faithful service. Late reports received at the war department indicate that an efficient force of native police has been organized, with prospects of further extension and increased ability. The total force numbers 6,349 officers and men, a great many of whom are on the "meritorious list" and receive additional pay. The body is concentrated principally in Northern Luzon, although the Visayas, Mindanao, Jolo and southern Luzon have police forces of considerable strength. In many of the towns the men are fully uniformed.

Herrick Not a Candidate.

Cleveland, May 13.—The attention of Colonel Myron T. Herrick was called to news paper articles to the effect that a movement is being inaugurated with a view to bringing about his nomination for governor at the Republican state convention. "I believe," said Colonel Herrick, "that Governor Nash has the confidence and respect of the Republican party in Ohio, as well as elsewhere. His administration has proved most successful, and he is undoubtedly entitled to renomination. Indeed, I have no doubt that he will be renominated and re-elected. I know nothing of the plan to bring my name before the convention further than what has appeared in the newspapers. I certainly shall not be a candidate."

Building Four Liners.

Philadelphia, May 13.—The New York Shipbuilding company, at its new yard near Gloucester, N. J., has begun work on four steel passenger and freight steamships for the Atlantic Transport company. A large amount of steel has been ordered from Pittsburgh for the yard in order that there may be no delay in pushing work on the vessels as speedily as possible. Two of the boats are to be 690 feet long and the others 500 feet, and they are to trade from Philadelphia, New York and Baltimore to London. The steamships are not intended to be flyers, but will be run at a moderate speed. They will have a carrying capacity of 6,000 tons of cargo, and will be ready for delivery in 1902.

Loree to Be B. & O. President.

Philadelphia, May 13.—L. F. Loree, fourth vice president of the Pennsylvania company and general manager of the Pennsylvania lines west of Pittsburgh, is to be named within the next few days as president of the Baltimore and Ohio. J. C. Stuart, general superintendent of the Midland North-western division of the Baltimore and Ohio, is to be made general superintendent of the entire Baltimore and Ohio lines. Such an arrangement will place the B. & O. under the entire control of the Pennsylvania railroad.

London, May 13.—General Dewet, according to a dispatch from Pretoria, has resumed operations, and is reported to have crossed into the Transvaal with 2,000 men.

RICH FOOD FOR FLAMES

A Thriving Suburb of Detroit Swept by a Disastrous Conflagration.

LOSS AMOUNTS TO NEARLY A MILLION

Lumber Mills and Yards and Other Inflammable Material Quickly Reduced by the Fire Which Was Fanned by a Gale.

Detroit, May 13.—Fanned by a 35 mile an hour wind, fire swept the west bank of the Rouge river in Delray, a suburb to the south of Detroit, for three-quarters of a mile, and destroyed over \$800,000 worth of property.

The fire originated in the roof of the Sallotte & Ferguson lumber mill. The mill had not been running for several months and the roof was as dry as tinder. The building was soon in ashes and the fire swept across a dock to where a dredge of the Carlin, Stiekney & Cram fleet of dredges was tied up. Despite efforts to save her this craft was burned to the water's edge. Great embers were picked up by the wind and dropped on the roof of Brownlee & Company's mill and Salt block, and both these buildings were destroyed. Even the great streams from the fireboat were powerless to check the flames, which were rolling down the river bank for hundreds of feet.

From the Brownlee property the fire jumped over into the large yard which the Western Union Telegraph company used as a storage point for their cedar telegraph poles. The yard is the distributing point for 10 states and over 100,000 poles were stored there. The fire swept through the great yard, which comprises about eight acres, in less than two hours. The plant of the Maltby Lumber company was the last one on the river bank and it was soon destroyed, together with a large stock of cedar poles which was stored in the company's yard.

While this fire was burning the lumber yard of G. A. Raupp & Company, in Ecorse, about a mile from Delray, was set on fire by sparks from a passing engine, and 500,000 feet of lumber were destroyed. The loss is about \$75,000.

Under Martial Law.

Jacksonville, Fla., May 13.—The city will remain under martial law indefinitely. This was decided here at a conference between the executive committee of the Jacksonville relief association and Governor Jennings and a special commission of the Florida legislature. The executive committee stated plainly to the governor at the conference that it apprehended danger from herds of negroes who have been flocking to Jacksonville in the hope of securing free rations without work, and it is believed by the committee that the militia should remain on duty until such time as the committee should decide that their presence was unnecessary.

Russian Duke Coming.

St. Petersburg, May 13.—Grand Duke Michael, heir presumptive to the Russian throne, has a keen desire to visit the United States, but whether he will be able to fulfill it depends largely on the course of events. In a recent conversation with Ambassador Tower the grand duke expressed a lively hope that he might be enabled to do so. He recalled the two visits paid the United States by the Grand Duke Alexis, and declared the latter was greatly impressed not only with what he saw in America, but that he had a grateful recollection of American hospitality.

Germany and Wall Street.

Berlin, May 13.—Throughout last week the German bourses studied the Wall street situation with the most intense interest, but with great reserve and in expectation of a crash. The Frankfurter Zeitung now remarks that "the direct interest of German speculation in American securities is at present not great, and German bankers have largely reduced their American holdings of late." Nevertheless the paper admits the events in Wall street have caused anxiety in this country because a reaction has been feared upon European markets.

What the Boers Overlooked.

London, May 13.—At a banquet of the Cornish association, held in London, General Pole-Carew said: "At the beginning of the war, had the Boers fully realized their strength and our unpreparedness, we would have been driven into Durban and Cape Town and we would have presented the spectacle of reconquering South Africa from the seacoast."

Paris, May 13.—M. Waldeck-Rousseau, the premier, who left Paris April 11 to recuperate from the effects of his recent illness, has returned to the city. It is announced that his health is completely recovered.

ALLIED SOLDIERS

Killed by Explosion of Buried Mines. Oriental Intelligence.

Vitoria, B. C., May 13.—News was brought by the steamship Glenogle that on April 22, 100 French and 30 Germans were killed and wounded by the explosion of mines buried on the frontiers of Shan Si and Chi Li. The China Times reports the capture of brigand headquarters, where Chinese were pillaging the neighborhood under the leadership of 10 foreign soldiers. The Germans killed 29 Chinese and captured a junk on which a cannon was mounted. The new 7,000 ton liner Sobranion was wrecked on the Chinese coast near Lung Ying, prior to the sailing of the Glenogle. The passengers and mails were saved. The vessel is a total wreck. There were 110 cases of plague and 104 deaths, and 65 cases of smallpox and 43 deaths, at Hongkong, from Jan. 12 to April 15.

Hamburg Line Expanding.

New York, May 13.—Following the announcement of the visit to this city of Director General Albert Ballin of the Hamburg-American steamship line comes the announcement that the Hamburg-American line has acquired the Atlas steamship line, which for the past 30 years has plied between Jamaica, Hayti and Central America. The Atlas line was formerly owned by an English corporation, but under the Hamburg-American line will fly the German flag. This addition to its service makes the Hamburg-American steamship line the largest in the world, the entire tonnage being 630,000 tons, which is divided among 120 vessels, sailing in 30 different services.

Put Up at Auction.

Paris, May 13.—Several of the residences forming part of the estate of the late Dr. Thomas W. Evans (the famous American dentist, long a resident of Paris, who, during the Franco-Prussian war facilitated the escape of Empress Eugenie), were put up at auction. The Hotel Des Sonverains, as it became known during the Paris exposition, was offered at the upset price of 2,800,000 francs, but did not find a purchaser. The property on the Rue De La Pompe was offered at the upset price of 900,000 francs, but this also was not sold. The house on the avenue Kleber was sold for 420,000 francs.

Testing the Challenger.

Wormouth, May 13.—The repairs on the cup challenger have been completed and the Erin towed the two Shamrocks here in readiness for the open water trials on the channel, which will commence today and continue daily until Captain Screamore and party are satisfied that the challenger is in perfect trim. Sir Thomas Lipton is the recipient of many presents from all sections of the country, but he is proudest of a photograph from President McKinley bearing a cordial greeting and the president's autograph.

The Free and Easy Yankees.

London, May 13.—Considerable amusement has been caused here by the publication of a dispatch from China saying great relief was felt among the European troops at the withdrawal of the Americans, who were too free and easy for the military etiquette of the continental forces. The Daily News comments on this as follows: "Their manners have not that repose that stamps the military caste of Europe. It is painful to think how the innocent freedoms of the American soldier must have jarred Messrs. Atkins, Duganet and the rest."

Illinois Central Strike Settled.

Chicago, May 13.—It was asserted by Business Agent Roderick of the International Machinists' association that the strike of the Illinois Central machinists, which had been threatened, would probably be settled amicably. A compromise was reached between officials of the road and representatives of the men. It is stated that the full advance of 12½ per cent was not granted to the machinists.

Wizard Schaefer Returns.

New York, May 13.—Jake Schaefer returned with his protegee and pupil, Leonard Howison, on La Lorraine, after a six months' tour of Paris, London and Berlin, in all of which capitals the "wizard" played matches and gave exhibitions at billiards. Schaefer will go to Chicago after spending a few days in this city.

New Locomotives.

New York, May 13.—The International Power company has just closed an order for a number of locomotives for the Atchison, Topeka and Santa Fe railway calling for the entire capacity of its plant for the remainder of this year. These locomotives will be built in Providence, R. I., and Paterson, N. J.

Escaped From Jail.

Muncie, Ind., May 13.—John Davis, arrested here and taken to Winchester, escaped from jail there by knocking senseless the wife of Sheriff Overman when she was serving his supper.

STRUCK BY A TROLLEY

Merry Starlight Party Comes to Grief While Riding to a Dance.

HALF A DOZEN BADLY MANGLED.

Driver of the Vehicle Tried to Cross the Tracks in Front of a Flying Electric Car—A Trolley's Dash Down a Hill.

New York, May 13.—Of 26 young people who started from College Point, L. I., on what is locally known as a "starlight" ride, two were carried home dead, five are in the hospital, four were allowed to leave the hospital after having their wounds dressed, and every one of the remainder were more or less bruised. A collision with a trolley car caused the accident. The dead are Michael Schmeil and Joseph Picklet. The merry-makers were on their way to a hotel 10 miles away, where they were to have a dance. They were all in one wagon, the bottom of which had been filled with straw. When in front of the hotel the driver of the wagon tried to cross the tracks of a trolley line in front of an approaching car, but the car struck the rear end of the wagon. The vehicle was demolished.

Picklet was hurled into the air and fell 30 feet away, his head striking a fire hydrant. Schmeil was also thrown into the air and landed head first on the macadam pavement. Both died in a short time. Miss Mattie Deboise sustained severe contusion of the chest and hips and was the worst hurt among the injured. The car itself was badly wrecked, but none of the 25 passengers was injured. The motorman was arrested, though claiming to be without blame in the matter.

Wrecked on a Curve.

New York, May 13.—An open trolley car, in which were packed about 115 persons, got away from the motorman near Fort Lee, N. J., and dashed down Leonia hill. Every person on the car was bruised, three were seriously hurt, and only one of them is likely to die. Frank Sunstruck, the conductor, it is feared may lose his life on account of possible internal injuries. The heavily loaded car had started down an incline a quarter of a mile in length when the motorman lost control. When the front trucks hit the curve they started around it and made it. The rear ones followed part of the way. The wrench upon the car, however, as it swung about, was so great that the body was lifted and torn from the trucks and rolled over and hit the ground.

Bank Teller Arrested.

New Orleans, May 13.—Samuel Flower, paying teller of the Hibernal National bank, was arrested here by United States Marshal Pontellien, charged with a shortage of \$36,999. The Fidelity and Deposit company of Baltimore is on his bond for \$25,000. It is alleged that Flower, expecting an examination, sent to another bank in this city a government sealed package said to contain \$40,000, and received in exchange for it \$10,000 in gold clearing house certificates of the denomination of \$5,000 each. His cash having been counted by the national bank examiner the evening before and found correct, it is alleged he returned the clearing house certificates to the bank from which he had borrowed them, and received in return his broken government package, said to contain \$10,000. This package was received by the Hibernal National bank from the sub-treasury of this city in March, and it contained \$5,000 in \$1 bills. It is alleged that Flower had preserved a label from an old government package that did contain \$10,000 in denominations of \$10 each, which he pasted on the package, thereby making it appear a \$10,000 package.

Wanted in Ohio.

Clinton, Mass., May 13.—Frank G. Kelly of Akron, O., accompanied by Deputy Sheriff Arthur arrived here with a requisition from the governor of Ohio for Joe Wade, who is wanted for alleged murder of Joe Turner at Akron on Nov. 21, 1899. The officer said he had traveled 5,000 miles in search of Wade through various states, who was arrested here through the medium of his picture and description printed in a Chicago paper. Wade had been here about six months and was employed on one of the Metropolitan water board's contracts. Wade showed great fear when confronted by the Ohio men, but said he would return without making any trouble.

To Resist American Competition. Vienna, May 13.—The Wiener Allgemeine Zeitung, reviving the recent reports of combined European action against the United States in the industrial world, asserts that Germany and Austria are negotiating with a view to the formation of a European league to resist American competition.

COLLECTOR SAPP says if the next Legislature is Republican the State will be restricted in such a way as to make certain the election of six Republican Congressmen. That's modern politics.

CAPTAIN OBERLIN M. CARTER is a hard man to down, and had he have stolen a few million dollars more from the Government he would have possessed a sufficient of the sinews of war to come out first best likely.

When Russell Sage a week or so ago predicted a panic equal to Black Friday, Mark Hanna said: "Uncle Russell is way off his track. I do not see a speck in the clouds and believe that prices of stocks are at about their worth." Wonder what Hanna thinks of last Thursday's wreck.

The Lowell (Mass.) Democratic Club, at its recent banquet, pledged itself to work for the nomination of Richard Olney, of Massachusetts, for the Presidency, in 1904. Mr. Olney was Secretary of State, and previously Attorney General, during President Cleveland's administration and did good work for the Democratic cause during the last campaign.

The net increase by the last Congress in the military establishment over its organization as it would have existed July, 1901, is 77,194 of officers and enlisted men, with annual pay amounting \$16,312,410, and fifty officers and 5,000 seamen in the naval establishment, with a yearly pay of \$1,802,425. This makes an increase of over \$18,000,000 in the annual cost of the government as a result of the Hanna-McKinley imperial policy.

One charming feature of the recent gambling symposium on the New York Stock Exchange was the sale of 100,000 shares of Northern Pacific railway stock that did not exist. And yet it isn't possible to say that the members of the Stock Exchange are gamblers and thieves. On the other hand, if a plain, every-day sort of fellow would sell a horse or a bushel of potatoes that he didn't own, he'd be rounded to the penitentiary.—Public Ledger.

Now what do you think of the trusts and combines that have flooded the market with their stock that doesn't represent an actual investment of a single cent? Every one of them ought to be in the pen right now for obtaining money under false pretenses. Selling stock that doesn't exist isn't much worse than selling a lot of "wind."

The Boston Globe points out that there are 600,000,000 acres of vacant land in this country. Of this 374,000,000 are suitable for grazing and farming; more than 96,000,000 acres are woodland; 76,000,000 acres contain forests of commercial value, and about an equal area is at present desert land. The Globe estimates that the arable portion alone would furnish homes and farms for 10,000,000 people and that the timber from woodland and forest would suffice to build comfortable homes, not only for our present population, but for many generations to come. The Globe therefore pleads for "expansion from within," and very correctly says that improved facilities for irrigation are essential to bring the now unused land into cultivation. Is there not considerable danger that in our craze for expansion toward the Orient we are neglecting our opportunities at home as well as violating national traditions? inquires W. J. Bryan in commenting on these figures in The Commonwealth.

A WISE AND TIMELY DECISION.

The Court of Appeals of Kentucky has recently decided, in the action for libel of Manire vs. Hubbard et al, that it was not libelous for the defendants to publish that there were no cases of small-pox in the town mentioned in the petition, as this was a question upon which laymen, as well as "professional experts," were entitled to entertain and might express an opinion. It seems, too, that the laymen in this instance had aggravated their offense by declaring in print that the negroes "who were said to have the small-pox had no breaking out, nor eruption until the attending physician (the plaintiff) had applied a salve to their faces."

This is certainly a judicial extinguisher for the infallible small-pox expert. It is timely, too. In the opinion of some he was rapidly rising to the dimensions of a nuisance.

Ice cream soda at Chenoweth's.

Joseph Cane, who lives in "Smoky Hollow," outside the city limits, was found to be ill Saturday with smallpox. The authorities had Cane and his wife and child promptly removed to the county pesthouse.

Glasgow Times: "Two mammoth steers attracted more attention than any cattle seen on the streets here in years. The two weighed 3,840 pounds—one 1,900 and the other 1,940. They were raised by B. Button, of Lucas County, who sold them at 5 cents a pound, or \$192 for the pair."

The marriage of Dr. T. M. Pearce and Miss Josephine C. DeMoss is announced to take place at Covington Wednesday, July 3rd. Dr. Pearce is the eldest son of Mr. and Mrs. E. L. Pearce, formerly of this city, and has been engaged in the practice of dentistry at Covington several years.

The accident Johnson Lewis, colored, met with Saturday morning while attempting to board a train at the Lawrence Creek bridge on the C. and O. where he has been standing night watch since the flood, resulted in the amputation of his right foot, the operation being performed by Drs. Ellis, Reed and Adamson. The injured man is getting along very nicely.

In the Nicholas Circuit Court last week Edward Wade was given a sentence of one year and fined \$100 for permitting gaming. Peter Grant and Edward Coleman, colored, were given three and two and a half years, respectively, for highway robbery. Hume Desha, colored, was given one year for cutting with intent to kill. There are several other criminal cases on the docket, the most important of which is that against Edward Moran, for the killing of Robert Scott, which is set for May 21st.

The Rev. W. O. Roberts, D. D., of Danville, and President of Centre College, was Friday elected President of the Central University of Kentucky and Chief Executive of Centre College, at a salary of \$3,000 a year, with residence, by the Board of Trustees of the university. The Rev. Dr. L. H. Blanton, Chancellor of Central University, was made the Vice President of the university, with special oversight over the affiliated colleges and schools situated elsewhere than at Danville, at a salary of \$3,000 and traveling expenses.

Prominent Democrats of Frankfort are authority for the statement that ex-Governor W. O. Bradley will appear as counsel for the prosecution should ex-Governor Taylor be brought back to Kentucky for trial. Bradley has been at outs with Taylor since his departure from the State, and since then it is said has become convinced of Taylor's guilt. However this may be, there is small probability that Taylor will be brought back, as it is generally understood that Kentucky officials felt Governor Durbin's pulse on the extradition proposition, and concluded it would not be worth while to make a requisition. Taylor's friends blame ex-Assistant Secretary of State J. B. Mathews for the damaging evidence against him in the recent Ripley trial. Mathews has done considerable detective work in the interest of Caleb Powers, and the developments, it is said, have led to a frost between Powers and Taylor.

Fought for His Life.
"My father and sister both died of consumption," writes J. T. Weatherwax, of Wyandotte, Mich., "and I was saved from the same frightful fate only by Dr. King's New Discovery. An attack of pneumonia left an obstinate cough and very severe lung trouble, which an excellent doctor could not help, but a few months' use of this wonderful medicine made me as well as ever and I gained much in weight." Infallible for coughs, colds and all throat and lung trouble. Guaranteed bottles 50c. and \$1 at J. Jas. Wood & Son's drug store.

DRESS LINENS

Last summer wove them into popularity. This season bids fair to see them doubly appreciated—for designs and fabrics are prettier than ever. To be sure Dress Linens are not always all-linen, simply because linen is used to produce effects of style and not to make the fabrics better. So while silks here are pure silk, woolen goods pure wool, housekeeping linens include a trace of cotton or tow, in dress linens the effect is above all else. And charming it is. Here beauty is accentuated by threads of silk—again cotton gives the tone. Linen for its effectiveness. Each style launders safely and easily. 25c, 35c. and 50c. a yard.

CRISPENE.

A species of Batiste foundation on the surface of which is woven exquisite designs which give strength as well as beauty. 100 different styles. 15c. a yard.

OVER-SEA DIMITIES.

75 pieces—no two alike—minute cords, needle size—give durability and style. The printing is as clear and handsome as steel engraving. 15c.

SCOTCH GINGHAMS.

Genuine Caledonians. That's easy enough to see for no people on earth have the magical plaid skill of Scotchmen. There are more a Zephyr Gingham than ordinary Scotch. 15c. a yard.

RIVER NEWS.

The Coal Combine Had Trouble Saturday With Striking Deckhands and Firemen—The New Liberty.

The Virginia, due down this evening, has a big passenger list.

Virginia, Urania and Indiana due down this evening. Stanley up to-night.

The Douglas Hall on her last down trip took a barge of 300,000 paving brick to Louisville to be used on the streets of that city.

It is said that Captain Sam Hamilton, of Gallipolis, will next take command of one of the Bay boats, either the Urania or Greyhound.

The new Liberty, built by Captain Booth, of Wheeling, is still at the shops at Middleport. She had steam some weeks ago, but her machinery, which is of an entirely new pattern, is not yet adjusted to suit the inventor.

The Tacoma brought up another excursion from Cincinnati Sunday, remaining here about five minutes, long enough, however, for some one to smash one of the police on the boat on the head with a brick bat. It was not learned how badly he was hurt.

The Crane Lumber Company, of Cincinnati, and the river men of Springfield, are deadlocked over the delivery of logs caught during the recent high water.

The log men want fifty cents each, and the lumbermen offer twenty-five, claiming that is all the law allows on the Kentucky side. Neither side seems disposed to give in, and it seems probable that it will take a lawsuit to settle the matter.

The Crain people also claim that large rafts were broken up to compel them to pay an extra price, which charge is denied by the log catchers.

The rise at Pittsburg was sufficient to let out a shipment of nearly 4,000,000 bushels of coal. With the arrival of barge water came a strike and an unpleasant surprise for the river coal combine.

That concern had a big fleet of steamers booked to depart with coal, but just at the last moment most of the deckhands declined to go on the boats unless they were guaranteed \$50 per month, \$10 more than they were paid on their last trips. The firemen likewise demanded an increase of \$5 a month. The combine expected to start the boats Sunday.

Old Soldier's Experience.

M. M. Austin, a Civil war veteran, of Winchester, Ind., writes: "My wife was sick a long time in spite of good doctor's treatment, but was wholly cured by Dr. King's New Life Pills, which worked wonders for her health." They always do. Try them. Only 25c. at J. Jas. Wood & Son's drugstore.

Western Union Office to Be Moved.

The Western Union Telegraph Company has leased "The Senate" building on Market street for a number of years and the local office will be moved into the new building the first of June. Manager Williams will have cozy quarters in his new office. It is more centrally located than the old one.

Ralston's breakfast foods,—Calhoun's.

Ice cream soda at Chenoweth's.

Miss Mary Hall, who came home from school at Cincinnati Friday quite ill, is improving.

A two-year-old child of James Graham, of West Union, fell into an open grate and was fatally burned.

Two thousand school children of Ashland and Catlettsburg took in the excursion Friday to the Cincinnati Zoo.

Quite a number of the Knights of St. John of this city were in Augusta Sunday assisting in installing the officers of the new commandery recently instituted at that place.

Mr. and Mrs. Thomas P. Anderson will soon return to Dover to reside on the Sroufe farm, two miles south of that place, which now belongs to their son, Mr. L. T. Anderson.

Mr. Charles Rudy, who has been in the employ of the Standard Oil Company at this place for some time, has been promoted to the position of agent of the company at Mt. Sterling.

Whether or not Taylor at Indianapolis pleads guilty as to complicity in the matter of the assassination of Governor Geibel, Taylor at Washington pleads guilty as to selling lower than anyone in the county, when he sells Arbuckle's coffee at nine pounds for \$1, and granulated sugar at eighteen pounds for \$1.

Perhaps your watch don't keep time—runs too fast or too slow or may be it stops. Bring it to us, and no matter what is the trouble we will make it keep time to perfection and not charge you any more than others who are not competent to do first-class work if they wished.

BALLENGER, jeweler and optician.

The formal announcement of Squire Wesley Vicroy as a Democratic candidate for Justice of the Peace in the First Maysville district appears elsewhere. Mr. Vicroy served the county very faithfully in this capacity in former years and is in every way well fitted for the position. He is a thoroughgoing Democrat, and if nominated and elected can be relied upon to give to the office that attention its importance deserves.

The Presbyterian Board of Foreign Missions passed this year in its receipts the \$1,000,000 mark. This is a record breaker for ordinary contributions, where the million mark was reached in previous years, having been effected by extraordinary windfalls. Besides this \$1,000,000 for missions \$500,000 has been raised to clear off the debt on the Presbyterian building in New York.

In Whitfield County, North Georgia, Mr. W. J. Summerour has an orchard of 250,000 peach trees. Only one-third of his orchard came into bearing last year, and from these he realized a net profit of \$23,000, says the Baltimore Sun. He has double the number of trees in bearing this year and confidently expects to realize a profit of \$50,000. Another fruit grower in the same county sold his crop of peaches from 1,700 trees last year to a fruit buyer for \$5,000 cash, the purchaser picking and boxing them.

He Is a Wauler.

All who see Mr. C. F. Collier, of Cherokee, Iowa, as he is now, cheerful, erect, vigorous, without an ache, could hardly believe he is the same man who, a short time ago, had to sit in a chair, propped up by cushions, suffering intensely from an aching back, in agony if he tried to stoop—all caused by chronic kidney trouble, that no medicine helped until he used Electric Bitters and was wholly cured by three bottles. Positively cures backache, nervousness, loss of appetite, all kidney troubles. Only 50c. at J. Jas. Wood & Son's drug store.

The Spirit of Patriotism.

The national cemeteries, in which sleep over a quarter of a million of our fallen comrades, are the nation's monument, which will forever endure, calling coming generations to reverence the cause in which they fell. No estimate can be placed upon the value of this day and upon the sacred and solemn observances of this hour. A generation have grown up since the battles of the Union were fought, and another generation are coming on whose old enough to understand the meaning of these sacred observances. When they hear the drumbeat, look upon our glorious flag, hear the story of the gallant deeds of the nation's dead and witness the grand spectacle of covering their graves with "nature's sweetest emblem of newborn life to man," there will be born in their hearts a spirit of patriotism which will make them willing to die for their country.

PITHY POLITICAL POINTS.

Wonder whether Captain Carter considers himself anchored at the Leavenworth penitentiary?

Cap. Carter has the consolation of knowing that he has put the government to a good deal of inconvenience on the proceeds of the deal he made with it.

Doubtless Taylor considers the purchasing of a home at Indianapolis as another anchor to his carcass.

CINCINNATI—Wheat: No. 2 red, 75¢ 7/8c. Corn—No. 2 mixed, 46¢. Oats—No. 2 mixed, 30¢. Rye—No. 2, 50¢. Lard—\$7.85. Pork—\$8.30. Bacon—\$9.00. Hogs—\$4.00 1/2 1/2. Cattle—\$2.50 1/2 1/2. Sheep—\$2.50 1/2 1/2. Lamb—\$3.75 1/2 1/2.

CINCINNATI TOBACCO MARKET.

Transactions Last Week on a Small Scale. Light Receipts and Offerings.

	1901.	1900.
Offerings of old.....	84	218
Offerings of new.....	1,498	314
Total offerings.....	1,582	532
Total rejections.....	282	194
Actual sales.....	1,300	338
Per cent. rejection.....	17 1/2	36 1/2
Receipts.....	1,061	370

The 1,498 bbls. new averaged \$6.25 per 100 lbs., as against \$6.74 for the 1,780 bbls. for the previous week and \$5.95 for the 314 bbls. for the corresponding week of last year.

The eighty-four bbls. old averaged \$6.94 per 100 lbs., as against \$7.58 for the fifty-four bbls. for the previous week and \$7.34 for the 218 bbls. for the corresponding week of last year.

Weekly review of the warehouse interests: Owing to the very light receipts and the very limited unsold stocks in the local warehouses transactions have been on a small scale. They compare well with the corresponding week of last year, however, when only 532 bbls. were offered, receipts amounting to only 370 bbls. While the market has, on the whole, been a very fair one, it has been scarcely as uniform as previous week.

The opening on Tuesday was strong and prices were fully equal to the best of the week before, but on the following days the competition was a little less aggressive and there seemed to be some irregularity at times.

Manufacturers' buyers continue to discriminate against soft hogsheads, but the redriers actively compete for them at the lower prices current.

A limited amount of redried new has appeared on sale and has been well received. Many shippers are preparing their holdings for immediate shipment, and it is expected that the breaks will soon be of normal proportions once more. The reports from the growing sections are quite flattering. Plants seem to be abundant and doing well. Although some were late in getting started, their growth has been so rapid in the past two weeks that they will likely be ready as soon as transplanting is desirable. In some counties the planting bids fair to be very heavy, while practically everywhere else it will be at least of the average size.

Mrs. Cynthia Waldrop, wife of the Rev. J. W. Waldrop, died Friday at her home in Owen County, of pneumonia.

I will be on the premises on the Tucker farm, two miles from Washington, Thursday, May 16th, at 2 o'clock p. m., and propose to rent a forty-four-acre field of grass to the highest bidder.

BOER WAR GOES ON.

British Buying Canadian Wild Horses For Troops in South Africa.

Vancouver, B. C., May 13. — Hundreds of horses which have been running wild during the last few years on the plains between Lillooet and Cariboo and Okanagan are being captured to be sold to the British government for use in South Africa.

An imperial cavalry officer is at Kamloops buying them as rapidly as they are brought in. The horses are of good size, most of them being mustangs bred with the domestic horses lost by ranchers at various times, which joined the wild herds.

Killed the Wrong Man.

Birmingham, Ala., May 13.—An unknown negro, thought to be James Brown, the negro charged with assaulting Miss Della Garrett of Springville, was shot and killed by a number of white men near Leeds, 12 miles from here. The negro got off a Southern train and the men at the depot noticing a resemblance to Brown called on him to halt. The negro ran and was riddled with bullets. The coroner is of the opinion that the wrong man was killed by the mob.

Marlboroughs Reconciled.

London, May 13. — The duke and duchess of Marlborough took an active and conspicuous part in the Primrose league during the week, always appearing together, as if to emphasize that there was no truth in the recent stories of a serious misunderstanding between them. At the reception Mrs. Blischoffsheim gave the league Thursday evening, among the prominent people grouped about the hostess were the duke and duchess of Marlborough.

Smallpox at Sitka.

Victoria, B. C., May 13.—Over 700 persons have submitted to vaccination at Sitka, where there are over 80 cases of smallpox. Four deaths are reported. At Killisnoo there were 20 cases and 6 deaths. By the capsizing of a canoe on the Naas river May 1 eight Indians were drowned. The trail from Atlin is impassable, Otter Lake being covered with water.

Cecil Will Be In It.

Cape Town, May 13.—It is announced that it has been decided to reconstruct the ministry, with Cecil Rhodes as premier, Dr. Jameson as colonial secretary and Sir John Gordon Sprigg as treasurer. Sir John, however, authorized a statement that there was no foundation for the reports of the reconstruction of the cabinet.

The "Chinese era" begins B. C. 2697, with the accession of the Emperor Yao, who first devised a calendar for the Chinese dividing the year into 365 days with an extra day every fourth year.

Grind less—get more

You will get more satisfaction from a cupful of Arbuckles' Coffee than from other coffees—and more cupfuls to the pound. Arbuckles' is not only better than many coffees that cost more, but is actually cheaper to use than the coffees that sell for a cent less per pound. Not another firm in the whole world can buy coffee to better advantage than the producers of

ARBUCKLES' Roasted Coffee

No other coffee (not even the fancy-priced) is cleansed, roasted, blended and packed with greater care or more skill. Buy Arbuckles' Coffee and get better quality and greater value than you could get in any other coffee at anywhere near the same price.

With each package of Arbuckles' Coffee you buy a definite part of some useful article (see list which each package contains). The article is yours whenever you present a certain number of signatures from the wrappers at our Notion Dept. Look for the list.
